## WORK PLACEMENTS

Following a week-long trial period, a longer term placement can be arranged for the young person.

The days and hours are completely flexible and can be adapted to suit the needs of both the young person and the employer. Placements can last anything from one to six months, where some young people might work one or two half days a week while others are on placement up to 30 hours a week.

There is no cost to the employer and no obligation to employ the young person following the placement; although there is a requirement to provide a meaningful learning opportunity and an on-site 'mentor', as well as relevant training where possible. All placements are supported by our dedicated workers who conduct regular reviews.
